

30 September 2022

The deadline to apply to Reigate College and East Surrey College is only two weeks' away, on **Friday 14 October**.

We encourage *all students* to make applications to *more than one college* so that they have a few options "on the table" when their results come in.

Those planning to do an Apprenticeship should also be making a college application as a "back-up" option, in case they change their minds over the coming year.

We strongly encourage you to attend these Open Events...

Reigate College on 4, 6 and 10 October

[Pre-registering is essential, do it HERE](#)

There's no parking on site, so [check options for car-parking HERE](#).

East Surrey College on 13 October

[Pre-registration is required, do it HERE](#)

I have set up a number of meetings with particular students during next week – tutors have this information and I have also emailed those students directly. If your young person doesn't have a meeting time but would like one to help with their decision-making, please just tell them to come and find me in 2-12 to set one up.

All the information you need about college applications is in my [email sent home on 16 September HERE](#)
