

5 October 2022

Dear parents and carers

Unfortunately we have experienced a technical issue with our data system, which is preventing us from publishing the up-to-date Predicted Grades for our Year 11 students that we had promised for today. This should be rectified by the beginning of next week.

Please accept our apologies, and reassure your young person that there will still be plenty of time before the college deadlines (Friday 14 October) for them to complete their applications. It is only East Surrey College that ask for predicted grades in this application form, Reigate College don't need this information until the interview in November.

Remind them that there is no advantage in making early applications; all applications received by that deadline from our school, are considered equally.

Best wishes  
The Carrington Team
