Safety Management System

We assess each component of a sports tour individually, which includes going beyond assessing the adventure factor to ensure risks can be managed effectively. In doing so, we look at how we can enhance the original experience whilst remaining as safe as possible. Covering policy, organisation, planning and setting standards, monitoring, audits, and reviews, our SMS is fully compliant with the requirements of the STF.

This is reinforced by our annual assessment carried out by an STF appointed independent authority. To support our own SMS we also carry out internal regular reviews of our health and safety procedures.
