7. You don't have to select the subjects in Block order. The first subject you select will register as your highest preference subject. These show on the right hand side.

My Choices in Order of Preference	(Total Choices: 3)				
To change your order of preference select a choice and click the position in the list you would like to move it to.					
Triple Sci General Block A					
Geography General Block B					
3 Catering General Block C					

The instructions above the choices explain how you can change your order of preference.

8. You can choose up to 3 reserve subjects (1 from each block). If you have already chosen a subject you can't also choose it as a reserve subject. For example, in the selection above Geography has already been chosen from Block B. The student is not able to choose it as a reserve in Block A.

Due to this you don't have to select a reserve subject in each block. The student in the example has only chosen two reserve subjects.

9. To choose a subject as a reserve, click the "Reserve" section of the subject name.
