

14 October 2025

Dear parents and carers

There are still **a few places left** for our Year 10 **visit to the [Science Live! Ultimate Science Enrichment Day](#)** at the Apollo Victoria Theatre in London on **Friday 5 December**.

We will see and hear from five of Britain's top scientists, all working at the cutting edge of their specialism, plus words of wisdom from an experienced Science GCSE Examiner who will give top tips for exam success. This is a great opportunity to hear scientists who are passionate in a range of fields, talk about recent developments and what excites them.

- Professor Lord Robert Winston – Medical doctor, distinguished scientist in the area of human fertility
- Professor Jim Al-Khalili - Physics
- Professor Andrea Sella - Chemistry
- Dr Mhairi Aitken - Digital Innovation
- Professor Sophie Scott - Neuroscience

The full cost of the trip is £30 and this has been added to your ParentPay so if you would like one of these places for your young person then please pay for this as soon as possible to secure the place. The trip will be unavailable on ParentPay once all the places are full. ***If you have already secured your place by making payment then there is nothing further to do.***

We will leave school at 09.00 and travel by train and foot, returning to Redhill by 16.45 (approximately). Students will wear school uniform and should bring a packed lunch as there is no catering at the venue. Free School Meals students will be provided with a packed lunch by our Catering Contractor.

Best wishes
Mrs L Avery
KS4 Science Coordinator
