18 November 2026

Dear parents and carers

We are really excited about netball this year and wanted to clarify how team selections and fixtures will work moving forward.

Our main focus this year is to get **as many girls playing netball as possible**. To support this, we are aiming to field both an **A Team and a B Team in every year group** wherever possible. This will allow more students to represent the school and gain valuable match experience.

We have also organised a number of **friendly fixtures** across different age groups. These games are designed to provide additional playing opportunities, particularly for those girls who may not have played as frequently in previous seasons.

Alongside these friendlies, we are entered into the **Reigate & Banstead District Schools Netball League**, which means there will be plenty of opportunities for girls to compete throughout the year.

Please be aware that:

- **A and B Team selections will change throughout the season.**
- Selection for one fixture does not guarantee selection for the next, and equally, not being selected for one match does not mean you will not be selected for future games.
- We will continue to review performances, effort, attendance at training, commitment and development when making selections.
- **A Team and B Team fixtures may take place at different times and on different dates**. Please make sure you check fixture information carefully and do not assume that because your friends have a match, you will automatically be involved in the same fixture.

We are extremely fortunate to have a busy fixture calendar this year, and we are looking forward to seeing as many girls as possible representing the school, developing their skills and enjoying their netball.

If your young person is not already playing netball and would like to, they are more than welcome to come and join Netball Club which runs after school on Mondays for 7s and 8s, and Tuesdays for 9s and 10s.

Thank you for your continued enthusiasm and commitment.

Best wishes
Miss A Measures
Subject Leader of Girls' PE
