

2 June 2026

Dear parents and carers

Please be aware that **all students will need a calculator for their Science assessments** during SKI week.

On Wednesday there are three science assessments taking place at the same time and we will have only a very limited number of spare calculators available as the school's maths exam calculators will already be in use for the Year 11 GCSE Geography exam.

To ensure your young person is fully prepared and not disadvantaged in their assessment, **please ensure they bring a working calculator with them on the day of their assessment.**

Best wishes  
**Mrs S Robinson**  
Subject Leader of Science
