

24 March 2026

Dear Parents and Carers

At approximately 11:30am today, the fire alarm was activated due to a small fire in one of our cooking rooms. The situation was handled quickly and safely by staff, and the fire was promptly extinguished.

Students were able to return to some of the school buildings shortly afterwards; however, they did not return to the affected building while the remaining smoke cleared. Unfortunately, some lingering smoke caused the fire alarm to sound again, and we therefore carried out a second evacuation.

All students and staff responded calmly and followed procedures as expected.

The Fire Brigade attended the site, confirmed everything was safe, and students were then able to return to their lessons.

Best wishes
The Carrington Team
