

25 February 2026

Dear parents and carers

Today we emailed students to invite them to take part in our first ever **Festival of Culture** - we hope this will be a special event to celebrate the many backgrounds, traditions, and identities that make our school community so unique.

This day is all about **sharing, learning, and celebrating**. Students will have the chance to represent aspects of their culture through clothing, food, music, art, stories, languages, or other meaningful traditions. Whether they want to showcase something personal or simply take part and learn from others, everyone will be welcome.

**Students can get involved by:**

- Bringing or wearing something that represents their culture or heritage (optional but encouraged - this can be as simple as a flag)
- Preparing a short explanation, demonstration, or display if they would like to share something
- Participating in activities and discussions throughout the day

More details about the schedule and activity options will be shared soon but for now, we are inviting students to start thinking about what they might like to contribute and **[complete this form](#) by Wednesday 4 March if they would like to be involved**. We would be grateful if you could talk to your young person about this event and encourage them to take part.

Best wishes

**The Festival of Culture Organising Committee**
